Art Unit: 3753

This action is responsive to the communication filed April 27, 2006.

Claims 8-33 and 36-38 have been cancelled.

Claims 1-3, 6-7, 34-35, and 39-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohmi et al, US Patent 5,983,933.

The coupling 30 of Ohmi et al fairly responds to the claims in that the rectangular portions labeled 43, 45 can be read as projections. More particularly, one can readily construct a planar surface at a 45° angle and fairly consider the corner to be a projection.

Eidsmore's drawings offer a convenient way to illustrate the issue. The filled in black parts below would be asymmetrical projections. The analogous portions of the fittings of Ohmi et al serve to locate and orient the fitting properly.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3753

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohmi et al.

The provision of a different size or shape for one end of the coupling 30 of Ohmi et al is considered an obvious matter of design choice.

Since claims 1-7 were treated on the merits in the Office Action of November 23, 2005 and claims 34-35 and 39-41 were added by amendment, the usual Final second action practice is proper, see MPEP 706.07.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
